

Amendments to the Specification:

Please amend paragraph 0022 as follows:

[0022] FIGS. 2A and 2B ~~are is~~ a perspective views of the vehicle floor structure according to the first embodiment of the present invention.

Please amend paragraph 0053 as follows:

[0053] As shown in FIGS. 2A and 2B, the first and second crossmembers 21 and 22 ~~are is~~ formed in a substantially U-shaped section shape. FIG. 2A shows the ~~The~~ front edge portion 33 of the corrugated sheet 30 ~~is~~ connected to the first crossmember 21. The floor panel 15 is connected to front and rear flat flanges 46, 47 formed at upper portions of the first crossmember 21 and to the ridges 35 of the corrugated sheet 30.

Please amend paragraph 0054 as follows:

[0054] The rear edge portion 34 of the corrugated sheet 30 is connected to the second crossmember 22 ~~(see FIG. 1)~~ in the same manner as the front edge portion 33 of the corrugated sheet 30 is connected to the first crossmember 21. Therefore, the ~~The~~ structure of connecting the rear edge portion 34 of the corrugated sheet 30 to the second crossmember 22 will not be described.
